Survey of Literatures in English - American Literature

Objective: This paper is introduced to familiarise students with literary works and authors (arranged alphabetically here) from British Literature, American Literature, Indian Writing in English and New Literatures in English and help them be prepared for getting through the NET and SET. Works (80) and authors (20) for each paper have been selected from the syllabi of various Indian universities and mainly from the question papers of the NET conducted in last twenty years. Students are expected to have a synoptic outline of each work and each author (a model template given at the end of the syllabus to prepare a summary) from any source such as *the Oxford Companion to English Literature* and *the Cambridge Guide to Literature in English*. The main objective of this elective paper is to guide students on where and what they should focus on (in addition to major works and authors they study under core papers) in order to get through the NET or the SET.

Note (for teachers): Teachers may get students to complete the model template given at the end of the syllabus and to present in class. Each student may be given equal number of works and authors for presentation. Teachers may also supplement students' presentation with more facts and pieces of information and help them get a comprehensive view of each work and author.
