B. Sc. (Digital and Forensic Science)

Syllabus

AFFILIATED COLLEGES

Program Code: 26E

2025-2026 onwards

BHARATHIAR UNIVERSITY

(A State University, Accredited with "A" Grade by NAAC, Ranked 13th among Indian Universities by MHRD-NIRF, World Ranking: Times -801-1000, Shanghai -901-1000, URAP - 982)

Coimbatore - 641 046, Tamil Nadu, India

Program	Programme Educational Objectives (PEOs)						
The B.Sc. Digital and Cyber Forensic Science program describe accomplishments that graduates are expected to attain within five to seven years after graduation.							
PEO1	Expertise with the knowledge on investigation of cyber offenses and online frauds						
PEO2	Exhibit high standards with regard to application of digital cyber forensic techniques in recovery and investigation of material found in digital devices.						
PEO3	Proficiency in various techniques to mitigate the complexities associated with threats on data transmission and recovery.						

Program	Programme Specific Outcomes (PSOs)							
	successful completion of B.Sc. Digital and Cyber Forensic Science program the are expected to							
PSO1	Impart education with domain knowledge effectively and efficiently in par with the expected quality standards for Digital and Cyber Forensic Science professional.							
PSO2	Ability to apply the mathematical, technical and critical thinking skills in the discipline of Digital and Cyber Forensic Science to find solutions for complex problems.							
PSO3	Ability to engage in life-long learning and adopt fast changing technology to prepare for professional development.							
PSO4	Expose the students to learn the important Digital and Cyber Forensic Science such as Cyber Policing, Web Application Security, Malware Analysis and Cyber Threat Intelligence and Mobile and Network forensics so that they can opportunity to be a part of industry 5.0 applications irrespective of domains.							
PSO5	Inculcate effective communication skills combined with professional & ethical attitude.							

Progra	mme Outcomes (POs)
On suc	cessful completion of the B.Sc. Digital and Cyber Forensic Science
PO1	Exhibit good domain knowledge and completes the assigned responsibilities
	effectively and efficiently in par with the expected quality standards.
PO2	Apply analytical and critical thinking to identify, formulate, analyze, and solve
	complex problems in order to reach authenticated conclusions
PO3	Design and develop research based solutions for complex problems with specified
	needs through appropriate consideration for the public health, safety, cultural, societal,
	and environmental concerns.
PO4	Establish the ability to Listen, read, proficiently communicate and articulate
	complex ideas with respect to the needs and abilities of diverse audiences.
PO5	Deliver innovative ideas to instigate new business ventures and possess the qualities
	of a good entrepreneur
PO6	Acquire the qualities of a good leader and engage in efficient decision making.
PO7	Graduates will be able to undertake any responsibility as an individual/member of
	multidisciplinary teams and have an understanding of team leadership
PO8	Function as socially responsible individual with ethical values and accountable to
	ethically validate any actions or decisions before proceeding and actively contribute to
	the societal concerns.
PO9	Identify and address own educational needs in a changing world in ways sufficient to
	maintain the competence and to allow them to contribute to the advancement of
	knowledge
PO10	Demonstrate knowledge and understanding of management principles and apply
	these to one own work to manage projects and in multidisciplinary environment.

BHARATHIAR UNIVERSITY::COIMBATORE 641 046

B. Sc. <u>Digital and Cyber Forensic Science</u> (CBCS PATTERN)

(For the students admitted from the academic year 2025-2026 and onwards)

Scheme of Examination

Course Designed by:

Course code	Office Automation and Internet	L	T	P	С
Core/Elective/Supportive	Core Lab : III	0	0	3	2
Pre-requisite	Basic Knowledge of Office Automation Tools	Sylla Vers			25-26 wards

Course Objectives:

The main objectives of this course are to:

- 1. Acquire and apply the computer applications in different aspects.
- 2. Get an insight knowledge on office automation.
- 3. Know the database maintenance in every type of applications.
- 4. Get the knowledge in effective power point presentation.
- 5. Impart knowledge and essential skills necessary to use the internet.

Expected Course Outcomes:

On the successful completion of the course, student will be able to:

1	Understand the fundamentals of Internet and the Web concepts	K2
2	Create and apply various statistical tools available in excel.	K3,K6
3	To gain knowledge making effective presentation using power point presentation	K4
4	Understand the basic concepts and evaluate the database using excel.	K5

K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

Programs 36 hours

- Prepare your resume in word and assume that you are studying in final year of your graduation and are eagerly looking for a job. Visit any job portal and upload your resume.
- 2. Create a flowchart for any program use proper shapes like ellipse, arrows, rectangle, parallelogram and grouping to group all the parts of the flowchart into one single object.
- 3. Create a simple mathematical calculations using formulas in excel sheet.
- 4. Prepare students mark list for your class and calculate Total, Average, Result and Ranking by using arithmetic, logical functions and sorting using excel sheet.
- 5. Create different types of charts for a range in students mark list using excel sheet.
- 6. Create a power-point presentation with minimum 10 slides
 - The first slide must contain the topic of the presentation and name of the presentation.

 - a. At least one table,5 bullets,5 numbers, font size, font face, font color.
 b. Use word art to write the heading for each slides. Insert at least one clip-art, one picture, one audio and one video.
 - c. Use custom animation option to animate the text, move left to right one line at a time and Use proper transition for the slides.
 - d. Last slide must contain thank you.
- 7. Open your inbox in the Gmail account created, check the mail received from your peer from other college inviting you for his college fest, and download the invitation. Reply to the mail with a thank you note for the invite and forward the mail to other friends.
- 8. Create your own Google classroom and invite all your friends through email id. Post study material in Google classroom using Google drive. Create a separate folder for every subject and upload all unit wise E-Content Materials.
- 9. Create and share a folder in Google Drive using 'share a link' option and set the permission to access that folder by your friends only.
- 10. Create poster for Department Seminar or Conference using any open source tools.

Course Code	Capstone Project Work Phase I	L	T	P	С			
Core/elective/Supportive	Skill Based Subject II	0	0	3	2			
Pre - requisite	 ☐ Students should have a good understanding of software engineering. ☐ Student should possess strong analytical skills. 	Sylla vers	abus ion		5-26 vards			
	Course Objectives	•		•				
☐ To understand and sel	ect the task based on their core skills.							
☐ To get the knowledge	about analytical skill for solving the selected task	. .						
☐ To get confidence for	implementing the task and solving the real time p	roblen	ıs.					
	Expected Course Outcomes							
On the successful completion	of the course, student will be able to:							
1 Illustrate a real-world pr	oblem and identify the list of project requirements	s			K3			
2 Compare existing system								
3 Judge the features of the project including forms, databases and reports								
K1 – Remember K2 – U	Aim of the project work	ate K	6- Cr	eate				

Aim of the project work

- 1. The aim of the project work is to acquire practical knowledge on the implementation of the programming concepts studied.
- 2. Each student should carry out individually one project work and it may be a work using the software packages that they have learned or the implementation of concepts from the papers studied or implementation of any innovative idea focusing on application oriented concepts.
- 3. The project work should be compulsorily done in the college only under the supervision of the department staff concerned.

Viva Voce

- 1. Viva-Voce will be conducted at the end of the year by both Internal (Respective Guides) and External Examiners, after duly verifying the Annexure Report available in the College, for a total of 50 marks at the last day of the practical session.
- 2. Out of 50 marks, 20 marks for CIA, 30 marks for CEE (20 marks for project report and 10 Marks for Viva Voce.)

			Expected Course Outcomes						
On th			of the course, student will be able to:						
1	Formulate a for a set of re		roblem and develop its requirements develop a de	sign s	olutio	on	K3		
2	Test and va		onformance of the developed prototype against lem	the o	rigin	al	K5		
3	Work as a resolutions	esponsib <mark>le m</mark>	ember and possibly a leader of a team in develop	ing so	ftwar	e	К3		
4	Express technical ideas, strategies and methodologies in written form. Self-learn new tools, algorithms and techniques that contribute to the software solution of the project								
5									
	K1 – Remen	nber K2 – U	nd <mark>erstand K3 – apply K4- Analyze</mark> K5 – evalua	ate K	6- Cı	reate			
			Aim of the project work						

- 1. The aim of the project work is to acquire practical knowledge on the implementation of the programming concepts studied.
- 2. Each student should carry out individually one project work and it may be a work using the software packages that they have learned or the implementation of concepts from the papers studied or implementation of any innovative idea focusing on application oriented concepts.
- 3. The project work should be compulsorily done in the college only under the supervision of the department staff concerned.

Viva Voce

- 1. Viva-Voce will be conducted at the end of the year by both Internal (Respective Guides) and External Examiners, after duly verifying the Annexure Report available in the College, for a total of 100 marks at the last day of the practical session.
- 2. Out of 100 marks, 25 marks for CIA and 75 for CEE (45 evaluation of project report + 30 Viva Voce).

Synopsis

1. Introduction

- 1.1 Organization Profile
- 1.2 System Specification
 - 1.2.1 Hardware Configuration
 - 1.2.2 Software Specification

2. System Study

- 2.1 Existing System
- 2.1.1 Drawbacks
- 2.2 Proposed System
 - 2.2.1 Features

3. System Design and Development

- 3.1 File Design
- 3.2 Input Design
- 3.3 Output Design
- 3.4 Database Design
- 3.5 System Development
 - 3.5.1 Description of Modules (Detailed explanation about the project work)

Syllabus (With effect from 2025 -26)

Program Code: 26E

DEPARTMENT OF CATERING SCENCE AND HOTEL MANAGEMENT Bharathiar University (A State University Accredited with "a" by NAAAC and 13th Rank among Indian Universities by MHRDNIRF) Coimbatore 641046, INDIA

MISSION

To develop IT professionals with ethical and human values.
To organize, connect, create and communicate mathematical ideas effectively, through
industry 4.0.
To provide a learning environment to enhance innovations, problem solving abilities,
leadership potentials, team-spirit and moral tasks.
To nurture the research values in the developing areas of Computer Science and
interdisciplinary fields.
Promote inter-disciplinary research among the faculty and the students to create state of
art research facilities.

☐ Motivate the students to acquire entrepreneurial skills to become global leaders.
